On Security of Tenure:
Case Studies from Egypt,... and some insights

Kareem Ibrahim, Consultation on Security of Tenure,
Johannesburg –May 2013

On Security of Tenure

A practitioner's approach to Security of Tenure:

- ▶ Overview of the urban and legal context
- ▶ 2 Case Studies documented through TADAMUN:
 - ▶ ADAA Housing Rehabilitation Program (the urban core)
 - ▶ Land Titling Case in 'Izbet Khayrallah (informal area)
- ▶ Some insights on Security of Tenure in Egypt in the light of the Case Studies

The Context: Urban Egypt in Figures

Basic Facts on Urbanization:

- ▶ Egypt **urban population** has reached **44%** of total population in 2012, with **2.0%** annual rate of change (2010 -2015) (Rural 1.4% - Average 1.7%);
- ▶ More than **12 million people** live in Egypt's informal areas and over half of this number lives in GCR;
- ▶ In Egypt, some **60%** of the population is **under 30**
- ▶ In Greater Cairo: **3.5 million closed residential units**

The Context: Development Pressures

Cairo / Egypt 2050 Vision

“By 2050, Egypt is to become a socially and economically developed country, active on the regional and international levels”

The Context: Development Pressures

The Context: Legal Framework

Legal Framework:

NEC Article 21:

“The State guarantees and protects legitimate ownership of all kinds of **public**, **cooperative** and **private** property and endowments, as shall be regulated by law”

NEC Article 24:

“**Private property** is **inviolable** and has a social function in the service of national economy without deviation or monopoly...”

The Context: Legal Framework

Legal Framework:

NEC Article 68:

“**Adequate housing**, clean water & healthy food are **given rights**.”

“The state adopts a **national housing plan**; its basis is **social justice**, the promotion of **independent initiatives** and **housing cooperatives**, and the regulation of the use of national territory for the purposes of construction, in accordance with public interest and with the rights of future generations.”

The Context: Legal Framework

Legal Framework:

- ▶ **Old Rent:** During Nasser's time, Egypt's tenant laws became very protective of the interests of the tenants:
 - ▶ No increase of rent values or termination of tenant's rental contract.
 - ▶ Next generations of tenants had the privilege of inheriting their rent contracts.
- ▶ **New Rent:** In 1996, the Egyptian legislature comprehensively deregulated owner and tenant relationships:
 - ▶ Time limited contract with annual increase

CASE STUDY I

ADAA Housing Rehabilitation Program

CASE STUDY I: ADAA Housing Rehabilitation Program

CASE STUDY I: ADAA Housing Rehabilitation Program

- ▶ out-of-date planning constraints
- ▶ complicated legal procedures
- ▶ low incomes
- ▶ limited access to housing finance
- ▶ multiple ownership
- ▶ insecure tenure

Total monthly income levels for Darb al-Ahmar in L.E.						
		average = L.E. 500/m				
L.E.		0 - 100	101 - 200	201 - 300	301 - 500	501 - 700 > 700
50%						
percentage of population					33%	
			13%	21%		15%
0%	4%					16%

CASE STUDY I: ADAA Housing Rehabilitation Program

The 1973 Masterplan

CASE STUDY I: ADAA Housing Rehabilitation Program

Decrease in ADAA Population

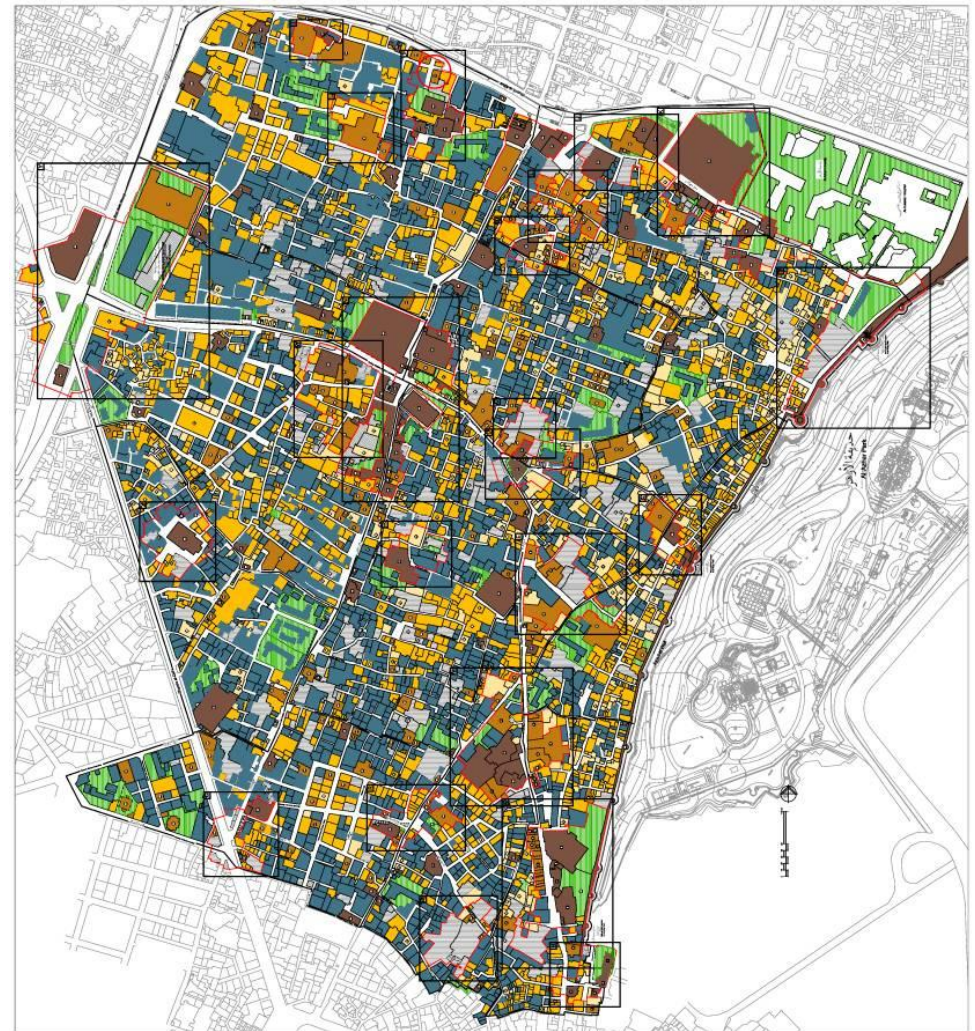

CASE STUDY I: ADAA Housing Rehabilitation Program

ADAA HRP Approach:

- ▶ Improve security of tenure through housing rehab.
- ▶ Provide technical support and training of local craftsmen
- ▶ Participatory design
- ▶ Access to housing loans
- ▶ Mediations and legal support

CASE STUDY I: ADAA Housing Rehabilitation Program

CASE STUDY II

Land Titling Case in 'Izbet Khayrallah

CASE STUDY II: Land Titling Case in 'Izbet Khayrallah

CASE STUDY II: Land Titling Case in 'Izbet Khayrallah

CASE STUDY II: Land Titling Case in 'Izbet Khayrallah

The Land Titling Case:

- ▶ **1970s- 1980s:** First settlement and attempts of forced evictions and demolitions by the State
- ▶ **1982:** Community **mobilization by women** and confrontations to stop forced evictions
- ▶ **1983:** Residents mobilized resources to use **litigation against the State**
- ▶ **1984:** Court order to temporarily **put demolitions and evictions on hold**
- ▶ **1980s:** Residents obtain **illegal access to utilities**
- ▶ **1986:** The State denies the residents their right to buy the land and they go to court again

CASE STUDY II: Land Titling Case in 'Izbet Khayrallah

The Land Titling Case:

- ▶ **1999:** Final court recognizing the residents' right to remain in the area and granting them the right to buy the land from the State based on:
 - ▶ 'adverse possession'
 - ▶ 'favoring safety and security of the residents over removing encroachments on State owned land'
- ▶ **2010:** For the first time, access to Government utilities
- ▶ **2003-2011:** Court order enforcing the Governor to sell the land to the residents, but with high land price
- ▶ **2011:** Establishment of the 'Khayrallah Lawyers Association'
- ▶ **2011-Present:** Residents appeal to reduce land price

On Security of Tenure

... some insights

On Security of Tenure: ...some insights

The Role Socio-Economic Networks (as safety nets)

- ▶ Tenacity, community mobilization and use of social network:
 - ▶ ADAA: collective enrolment in HRP and access to microcredit
 - ▶ Khayrallah: community mobilization (women, natural leaders, lawyers,..) + Lawyers Association + NGOs Union
- ▶ What is better: living within a social network in an illegal/informal setting, or live alone in a legal and formal setting? (impact on overall security, access to resources, etc.)
- ▶ Where is the link to formal/informal **economy** and **environmental impact** of insecure tenure?

On Security of Tenure: ...some insights

Diversity and Multiplicity

(tenure systems and categories + housing products)

- ▶ They work against ‘Commodification of Land’ (inheritance, multiple ownerships, tenants’ occupancy)
- ▶ Diversity in tenure systems and categories in the urban core and informal areas (old rent, new rent, individual freehold, collective ownership, Awqaf, informal occupancy, etc.)
- ▶ Dynamic tenure status across communities (change from individual freehold to tenants’ occupancy)
- ▶ Overlay of a multiplicity of housing products/unit sizes

On Security of Tenure: ...some insights

Negotiations and Pragmatism

(Legitimacy and Security vs. Legality and Formality)

- ▶ What makes tenure secure? What degree of insecurity is on stake? (threat, reality, absence of right,..)
- ▶ When is Legal Action needed? Where does it end?
 - ▶ Clear priorities in Khayrallah:
 1. Stop demolitions and evictions (immediately needed)
 2. Access to services and utilities (recognition by the State)
 3. Land ownership (disputed)
 - ▶ ADAA: almost 50% of HRP clients are tenants

On Security of Tenure: ...some insights

Negotiations and Pragmatism

(Legitimacy and Security vs. Legality and Formality)

- ▶ “We claimed our own right”: Legitimacy (not legality, formality or property rights) as basis for Security of Tenure
- ▶ How is Legitimacy obtained? How does it link to Citizenship?
- ▶ Negotiations and Pragmatism (use of achieved realities and social networks):
 - ▶ The impact of physical (not necessarily legal) realities on enforcing Security of Tenure
 - ▶ Benefit from all situations, even demolitions

On Security of Tenure: ...some insights

Where is the role of Practitioners?

- ▶ Recognize and strengthen **socio-economic networks**
 - ▶ Encourage and **promote diversity and multiplicity of solutions** and approaching strategies
 - ▶ Further investigate **assumptions of Legitimacy** and promote an **urban bill of rights** as a basis for **equal citizenship**
 - ▶ Demand **reform of policies and practices**: land governance, management and administration + Urban Planning
 - ▶ Shaming practices violating ‘Security of Tenure’
 - ▶ Raise **awareness** and **provide alternatives** to local communities and State actors (TADAMUN)
-
